SUSTAINABILITY

WE NEED YOUR HELP TO TAKE CARE OF IT!

THE MAGIC ISLAND IS A NATURAL PARADISE THAT WE WANT TO CONTINUE ENJOYING FOR MANY YEARS TO COME.

We will have **different types of containers** to facilitate the separation of waste. They will be distributed at the **refreshment points, start and finish areas.**

If a runner spills outside the containers distributed at the refreshment points, **he/she may be disqualified** by the organization.

RESPECT THE ENVIRONMENT, YOUR EFFORT MATTERS FOR A MORE SUSTAINABLE WORLD.

At the refreshment points, **drinks will be delivered in biodegradable cups.** Please dispose of them in the indicated container to facilitate their collection.

Be especially careful **with thermal blankets, as they are very light and can end up in the sea.** Place them **tightly rolled up in the yellow containers** and close the lid when you put them in.

SUSTAINABLE DEVELOPMENT GOALS AND TARGETS

In September 2015, world leaders defined **17 Sustainable Development Goals (SDG)** to walk, together, towards a better, fairer and sustainable world and sustainable world.

These common goals require everyone's collaboration.

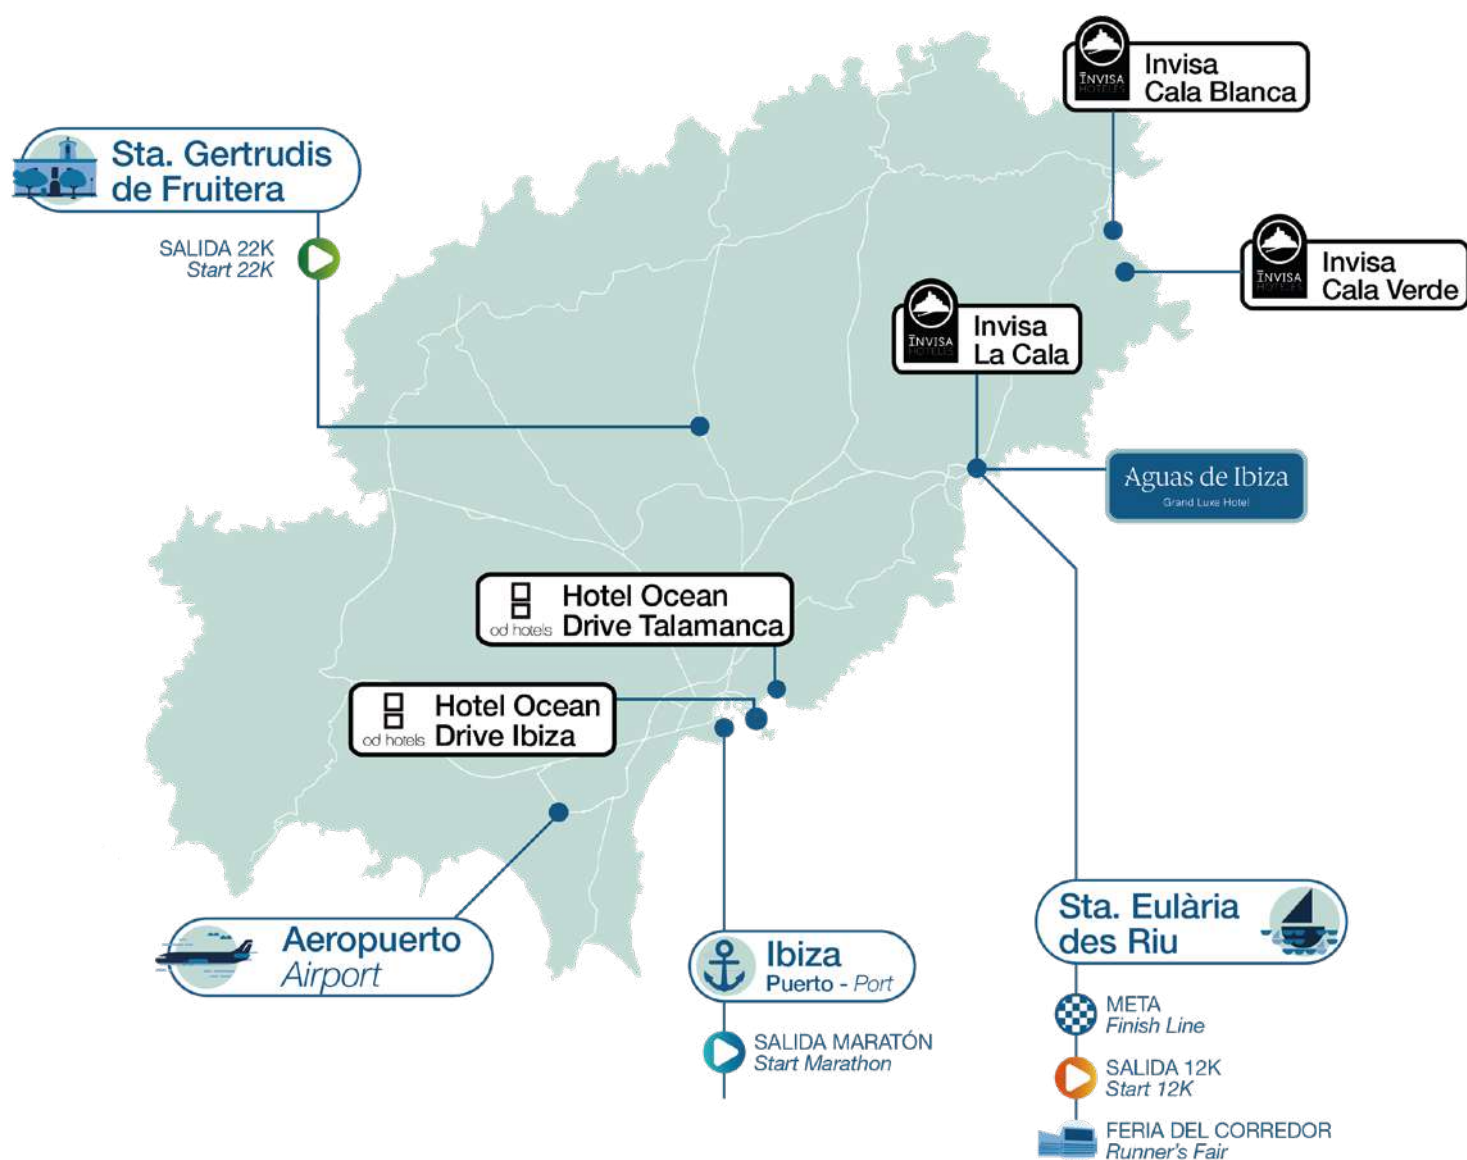

- 1** We promote accessibility for runners in an inclusive environment.
- 2** We work towards social integration by promoting equal and inclusive participation through our commitment to APNEEF.
- 3** We develop specific actions to promote female participation.
- 4** We promote local culture and gastronomy by integrating them into the Runner's Fair and promoting them among runners and companions.
- 5** We promote the local economy by involving local businesses in the project.
- 6** We design and execute a recycling and waste classification plan.
- 7** We promote sustainable mobility for workers and participants.
- 8** We use local and seasonal products.
- 9** We digitalize informative and promotional materials.
- 10** We make available to everyone an APP with information about the event.
